CrowdStrike Falcon

Stopping breaches with unmatched prevention
and unrivaled visibility

SETTING THE NEW STANDARD IN ENDPOINT PROTECTION

The CrowdStrike Falcon® platform is pioneering cloud-delivered endpoint protection. It both delivers and unifies IT Hygiene, next-generation antivirus, endpoint detection and response (EDR), managed threat hunting, and threat intelligence – all delivered via a single lightweight agent. Using its purpose-built cloud-native architecture, the Falcon platform collects and analyzes over 150 billion endpoint events per day from millions of sensors deployed across 176 countries.

FALCON INSIGHT

ENDPOINT DETECTION & RESPONSE

15-DAY FREE TRIAL

Falcon Insight is CrowdStrike's endpoint detection and response (EDR) solution. It allows organizations to monitor their organization's environment and remediate the situation with the help of real time visibility.

- ➔ Unique Indicator of Attack (IOA) behavioral protection
- ➔ Complete real-time visibility
- ➔ Five-second search to discover and investigate current and historic endpoint activity
- ➔ Events can be contextualized by threat intelligence, providing attribution and additional context
